

Angel Coffee Maker Thermos™

~ Overview ~

1 - OVERVIEW: The *Angel* Coffee Maker is the world's first, patented Coffee Maker made from a wide mouth, 32 oz Thermos.

To make coffee in the *Angel*, first remove the **Cap + Screen** from the **Thermos**. **No Eco-unfriendly Paper Filters or Coffee Pods are used**. Then, place about 8 Tbsp of **COARSE GROUND COFFEE** to the **Thermos** + Hot Water up to the bottom of the **Screen**, stir to improve extraction, tighten the **Cap**, wait 3+ minutes for the coffee to fully brew, and pour out "smooth", hot, delicious *Angel* Coffee into a cup for drinking. The built-in **Screen** holds back the Coffee Grounds. Adjust the amount of **COARSE GROUND COFFEE** in subsequent brews to achieve your ideal coffee strength!

The *Angel* utilizes 2 brewing methods simultaneously, **traditional Immersion brewing + Pressure brewing**. The **Immersion brewing** is obvious - the Coffee Grounds float in hot water and coffee is extracted. The **Pressure brewing** is less obvious, yet present + magical. In the sealed **Thermos**, the Hot Water heats up the small amount of air to create a small amount of pressure.

The unique combination of **traditional Immersion brewing + Pressure brewing** in the *Angel* is remarkable. It results in **(1)** coffee that is "uncommonly smooth" (less bitter) and **(2)** coffee that does NOT become more bitter with longer brewing times (even overnite).

2 - FEATURES: The *Angel*, being a **Thermos**, keeps one's coffee "**hot-for-hours**". The tall **Handle (1)** allows the *Angel* to be easily **transportable**, even when wearing gloves in cold weather and **(2)** acts as an **anti-roll bar** when the *Angel* is laid on its side (eg. in a boat in rough water).

3 - USES: Permits restaurant quality Coffee, Tea, or Espresso anywhere outdoors. Perfect for campers, construction workers, firefighters, hikers, hunters, ice fishermen, nature watchers, office workers, picnickers, police, restaurant diners, sailors, snow plow drivers, soldiers, utility line workers, etc.

4 - BENEFITS: In sum, "***The Angel* Coffee Maker brews Ultra Smooth, Hot-for-Hours, Transportable Coffee!**". No other camping or portable Coffee Maker offers the plethora of Benefits the *Angel* provides. If you are a Coffee Drinker, **YOU WILL WANT ONE!**
